**Haas/SITLA/DOGM**  
**March 10, 2008**

**Attendees:** Bryce and Carrie Haas, Lynn Kunzler, John Blake, Jed Pearson, and Susan White

Listed below are points of discussion/agreement from our meeting.

Fayette Quarry (M0390013)

Haas's will get a mineral material permit for 1 year from SITLA for this site. The stone saws will be move from the site a soon as Haas's gets a permit from the county for property across the street. Haas's will reclaim approximately 10 additional acres to reduce the reclamation liability for this site by the end of the March. Haas will complete reclamation of the entire site by the expiration date of his new one-year permit from SITLA.

Gunnison Quarry (S0390012)

This site has 5 acres of disturbance. It will be reclaimed to 1 acre by March 14. Haas's will call Lynn to conduct an inspection. DOGM must have a surety bond for this site. Haas's/DOGM agreed to a payment plan. This requires 10% down and regular payments there after. The surety must be paid off in one year.

Mayfield Quarry (E0390008/S0390020)

This site has 5 acres of disturbance. It is not bonded and the exploration permit has expired. A surety bond is required for the small mine permit to be approved. Haas's will reclaim 2 to 3 acres by April 14. The site will need to be bonded at that time.
